

Thank You

On behalf of the Cross-Disabilities Advisory Council (CDAC) 2025-2027, thank you to everyone who shared at our CDAC meeting by providing public comment.

Your time, expertise, and thoughtful discussion are essential to the work of the Council. The conversations and perspectives shared help strengthen services and supports for North Dakotans with disabilities and their families.

We appreciate the dedication of members and guests who continue to advocate for improved access to health care, early intervention, home and community-based services, Medicaid waivers, employment, transportation, education, assistive technology, and other supports that promote independence and quality of life.

Your willingness to share your knowledge and lived experience helps guide meaningful conversations and informs the Council's work. Thank you for your continued commitment to improving opportunities and outcomes for people with disabilities across North Dakota.

We appreciate your partnership and look forward to working with you at future CDAC meetings.
